FORE WORD

November, 2020

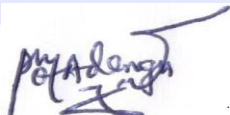

Kumi University (KUMU) has been running a Semester System since 1999. The Bachelor of theology programme was the first programs at KUMU to be run on the Semester System. On 14th December, 2004, KUMU was granted a Provisional License by National Council of Higher Education (NCHE) and it adopted the Semester System for other undergraduate programs and as a result the academic calendar for Semester one was shifted to commence in the month of August every year.

The programmes are divided into a number of courses. Each course is assigned a particular credit unit and a student works toward achieving the program graduation load by accumulating credits. Students should be mindful of the duration of each programme and should endeavor to complete the programme within its duration. A student who is not able to complete the programme on time is allowed extra time to allow for completion.

The Universities and Other Tertiary Institutions Act 2001 as amended, Sec 45 (2e) empowers Senate to make regulations regarding the standard of proficiency to be attained in each examination for a degree, diploma, certificate or any other award by the University. In this regard, KUMU has in place, quality assurance mechanisms to ensure the proper administration of university examinations. These mechanisms are stipulated in this examination regulations booklet. The examination regulations should be read by both staff and students. Students should familiarize themselves with these regulations and may seek clarification and guidance from their respective Deans / Head of Departments or the Academic Registrar. The interpretation of these regulations rests with Senate. These regulations shall be read in conjunction with University Rules which apply to all student members of the University.

I am grateful to the Heads of Departments and Faculty Deans for the excellent work they have done in putting together these examination regulations as well as other semester rules which have been endorsed by Senate.

Godliness Excellence for Servanthood.

Adengu David Emmanuel
Academic Registrar.

1.0 Background

Kumi University is a private Christian based institution of learning which is found in East Africa and was licensed by the National Council for Higher Education (NCHE). Its origin dates back to 1996 with the establishment of Africa Leaders Training Institute (ALTI) by the Korea Food for the Hungry International (KFHI) a Korean based Non – Governmental Organization (NGO). In 1999, ALTI was transformed into Kumi University. KUMU foundation was however approved by Ugandan Government in 2004 with the issuance of operational document No. 66491. During the same year (2004), the University acquired an operational license from the National Council for Higher Education (NCHE) License number UI.PL...002 NCHE.

1.3 Examination Management:

Examinations occupy a strategic position in our lives and society today. In a situation where the moral principles, rules and regulations for conducting examinations are truncated by either the lecturer or the learner, the validity and reliability of the examination and certification are at risk. The management of examination is something that should be looked into deeply having known the role of examination in our lives. That is the essence of this manual. Talking about the ethical issues, we are all aware of the manner/way in which examination malpractice has eaten deep into the lives of our society. Some measures really have to be taken to normalize the examination system in our society. The challenges of examination management are numerous for example,

having responsible teachers/examiners, conducive atmosphere for conduction of the examinations, creating in the students, sense of responsibility and good study habit. This manual provides guidance in the management of examinations and categorically wrong handling of examinations that has brought in what some may term examination malpractice or offences or irregularities. I therefore urge all stake holders involved in the Examination activities to read this manual carefully if we are to achieve the objectives of the university examining body.

1.4 Importance of Examinations

The following are the importance of examination(s):

7.0. GRADING OF PROGRAMMES:

7.1. Grading of courses:

Each course unit shall be graded according to the computed marks obtained from both the continuous assessment and examination. The grade of degree awarded to a student shall be according to the grade point and Cumulated Grade Point Average (CGPA) scored.

Each course shall be graded out of a maximum of 100 marks and assigned appropriate letter grades and grade point average as follows:

A: 5, B+: 4.5, B: 4, C+: 3.5, C: 3, D+: 2.5, D: 2, F: 0.

7.2. Grade Point (GP)

The final marks for a Course shall be converted into Grade Points (GP) as follows:

Marks	80-100	75-79	70-74	65-69	60-64	55-59	50-54	0-49
Alpha grade	A	B+	B	C+	C	D+	D	F
Grade Point (GP)	5.0	4.5	4.0	3.5	3.0	2.5	2.0	0

The pass mark for any course unit is 50% equivalent to GP of 2.0 and the course pass grade is 2.0.

7.2.1. Weighted Grade Point (WGP)

The GP scored for each course shall be weighted by multiplying the GP by the credit unit for the course. The WGP will determine if the student qualifies for normal progress. (Please see details in the paragraph on progression). It will also be used for determining the grade of Diploma awarded to the candidate.

7.2.2. Computation of Grade Point Average (GPA)

The Grade Point Average (GPA) shall be calculated using the following formula:

$$GPA = \frac{\sum_{i=1}^n (PG_i \times CU_i)}{\sum_{i=1}^n CU_i}$$

Where PG_i the Grade Point is score in course i ; CU_i is the number of Credit Units of course i ; and n is the number of courses taken in that semester or recess term. CGPA is calculated using a formula similar to the one above, but n is the number of course taken from the beginning of the program up to the time when the CGPA is being computed

7.2.3. Cumulative Weighted Grade Point Average (CWGPA)

The Cumulative Weighted Grade Point Average (CWGPA) shall be computed as follows:

- a) Compute the WGP for each of the courses taught during the year.
- b) Add together all the WGPs obtained as in (a) above for all the courses taken during that year.
- c) Divide the total obtained in (b) above by the total number of credit units taken during one year to get the CWGPA for the year.
- d) The CWGPA for the whole course is obtained by simple average of the CWGPA for year 1 and year 2.

- Requests to accommodate a student's religious creed by scheduling tests or examinations at alternatives may not be entertained.
- Students who miss examinations or tests based on religious creed, should inform their respective Heads of Departments as soon as the timetable is published preferably two weeks before examinations so as to avoid being categorized as being absent without justifiable cause and a course grade of ABS shall be assigned to that course(s).
- You are therefore urged to respond to the academic work in the Department even if it takes place on the respective days of worship.

10.14. Doubling Exam Marks

Every year there may be complaints from students who believe that their mark for one or more examination papers is too low. Departments must perform lots of checks and the chances of a mark being significantly in error are tinny. The most common reasons are because the question has not been answered in sufficient depth or some of the required points in the answer have been missed. Answers are sometimes self-contradictory or illegible or the main point of the question has been missed.

10.15. Complaints about Examination Marks

The decision of the examiners regarding passes, fails and degree classification are taken with extreme care and attention, with one of the primary considerations being fairness to all students. Once those decisions are made, the opportunities to change them are very limited; in particular, students do not have the right to have their papers remarked (simply because the published mark does not match their expectation. Only if we are presented with prima facie evidence that a student has been treated unfairly will we even consider a change of decision.

Should you feel that the department has not treated you fairly, every student has the right to use the University examinations appeal procedure. Candidates shall make their requests in writing

clearly specifying the grounds upon which the appeal is being made including, but not limited to the following;

- (i) That there exists or existed circumstances affecting the student's performance of which the examiners had not been made aware when their decision was taken;
- (ii) That there were procedural irregularities in the examination process;
- (iii) That there is evidenced of prejudice or bias or inadequate assessment on the part of one or more of the examiners.

Note:

- (a) That disagreement with the academic judgment of the examiners is not a ground for appeal.
- (b) That the mark which the candidate gets after remarking is the final mark.

11.0. FORGERY

- Overly depending on the work of one or more other without proper acknowledgement of the source, by constructing an essay, project etc. by extracting large sections of the text from another source, and merely linking these together with a few of one's own sentences. (Departments may extend these definitions for specific subject areas and provide students with examples as appropriate). The correct referencing system for making quotations

explicit and acknowledging sources shall be available through personal tutors or supervisors, specific tutorial sessions and handbooks).

14.0. Conclusion;

Examinations occupy a very strategic position in our lives today. Lecturers and Administrators rely on them for a comprehensive evaluation of their students and clients. To decide whether or not a student merits being promoted to another class, a series of achievement tests that will eventually culminate in a well-founded decision has to be given.

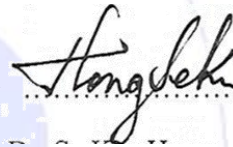

Since examinations occupy such a central position in our educational settings, management of examinations should not be taken lightly. Every effort must be made to properly harness every resource (both human and material) needed in order to achieve the objective(s) of examinations in the University system. Management of examinations should start with creating in the students, sense of responsibility from day one and also teaching them proper study skills and helping the lecturers and the managers of examinations and all stakeholders to develop mature

personality. When these are imbibed, management of examination will become very easy right from the setter, moderator, the examination scout, invigilators and the students will no longer struggle to abide by the principles governing examinations.
